Objective

Motivated WordPress Developer with hands-on internship experience building and maintaining real-world websites. Skilled in Elementor, Elementor Pro, Astra, and GeneratePress, with a focus on responsive design, clean layouts, and user-friendly navigation. Seeking a full-time WordPress Developer role to contribute practically and grow professionally.

Technical Skills

- **CMS & Page Builders:** WordPress, Elementor, Elementor Pro
- **Themes:** Astra, GeneratePress
- **Website Types:** Educational Platforms, Business Websites, News Blogs
- **Core Skills:** Responsive Web Design, UI/UX Layouts, Content Publishing, Website Maintenance
- **Other:** Basic SEO Practices, Performance Optimization, Cross-browser Compatibility

Internship Experience

WordPress Developer Intern   *Saral Startup School*   *[Sep 2025] – [Jan 2026]*

- Built and redesigned websites using WordPress, Elementor Pro, Astra, and GeneratePress for real-world client and internal projects.
- Developed educational platforms, business websites, and news blogs with clean, responsive layouts.
- Maintained and updated live projects, ensuring website performance, uptime, and content accuracy.
- Regularly published and managed website content, improving user-friendly navigation and page structure.
- Collaborated on multiple simultaneous projects, gaining experience in real-world development workflows.

Projects

Educational Platform Website

Designed and developed a full educational website using WordPress and Elementor Pro with structured course pages, responsive layouts, and intuitive navigation for learners.

Business Website Redesign

Redesigned a business website using the Astra theme and Elementor, improving visual design, mobile responsiveness, and overall user experience.

News Blog Website

Built a news blog using GeneratePress and WordPress, implementing content categories, SEO-friendly structure, and fast-loading pages.
