PROFESSIONAL EXPERIENCE

Junior WordPress Developer | Theories Consulting

March 2026 – Present

Hyderabad, Telangana

- Manage **website maintenance** for multiple client WordPress websites under the company's ongoing maintenance plan.
- Regularly update **plugins and themes** to keep all websites secure, stable, and running smoothly.
- Take scheduled **website backups** ensuring full data safety and fast recovery for all client websites.
- Perform **content updates**, fix bugs, and modify website sections based on client requirements and feedback.
- Conduct post-update **quality checks** to verify all pages, features, and forms work correctly across devices.

WordPress Developer Intern | Saral Startup School

September 2025 – January 2026

Nizamabad, Telangana

- Converted **Figma designs** into pixel-accurate, fully responsive WordPress websites using Elementor and CSS code.
- Built responsive layouts for desktop, tablet, and mobile ensuring smooth experience across all screen sizes.
- Tested across **multiple devices and browsers** for consistent performance and cross-browser compatibility.
- Collaborated with team to implement design changes and deliver website enhancements on schedule.

PROJECTS

Figma to WordPress Website Conversion | WordPress, Elementor Pro, Astra

- **Objective:** Convert a client Figma design into a live, fully functional WordPress website.
- **Work done:** Built complete site layout using Elementor Pro, applied CSS code for pixel-accurate design match, ensured full mobile responsiveness across desktop, tablet, and mobile screen sizes.
- **Outcome:** Delivered a clean, fast-loading, responsive website that matched the original Figma design exactly.

Business Website Development | WordPress, Elementor Pro, GeneratePress, On-Page SEO

- **Objective:** Build a professional business website from scratch for a small business client.
- **Work done:** Developed full website using GeneratePress theme and Elementor Pro, implemented on-page SEO including meta tags, heading structure, internal linking, and SEO-friendly URLs for better Google visibility.
- **Outcome:** Delivered an SEO-structured, mobile-friendly business website with optimized page speed and clean UI.

WordPress Website Maintenance Management | WordPress, Plugin Management, Backup Tools

- **Objective:** Manage and maintain multiple live client WordPress websites under a structured maintenance plan.
- **Work done:** Performed regular plugin and theme updates, took scheduled full-site backups, resolved bugs from plugin conflicts, made content updates, and ran post-update checks on all pages and features.
- **Outcome:** Kept all client websites secure, stable, and running smoothly with zero data loss incidents.
